

MINISTERSTWO
ŚRODOWISKA

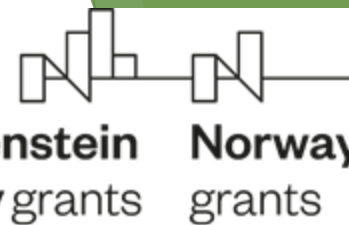

PL - Programme: Environment, Energy and Climate Change

Reykjavík, October 2019

Iceland

Liechtenstein

Norway grants

Norway

grants

Programme objective

Climate change mitigated and vulnerability to climate change reduced

Programme Grant

€ 140,000,000 (EEA Grants)

Programme Operator

Ministry of the Environment with support from the National Fund for Environmental Protection and Water Management

Donor Programme Partners

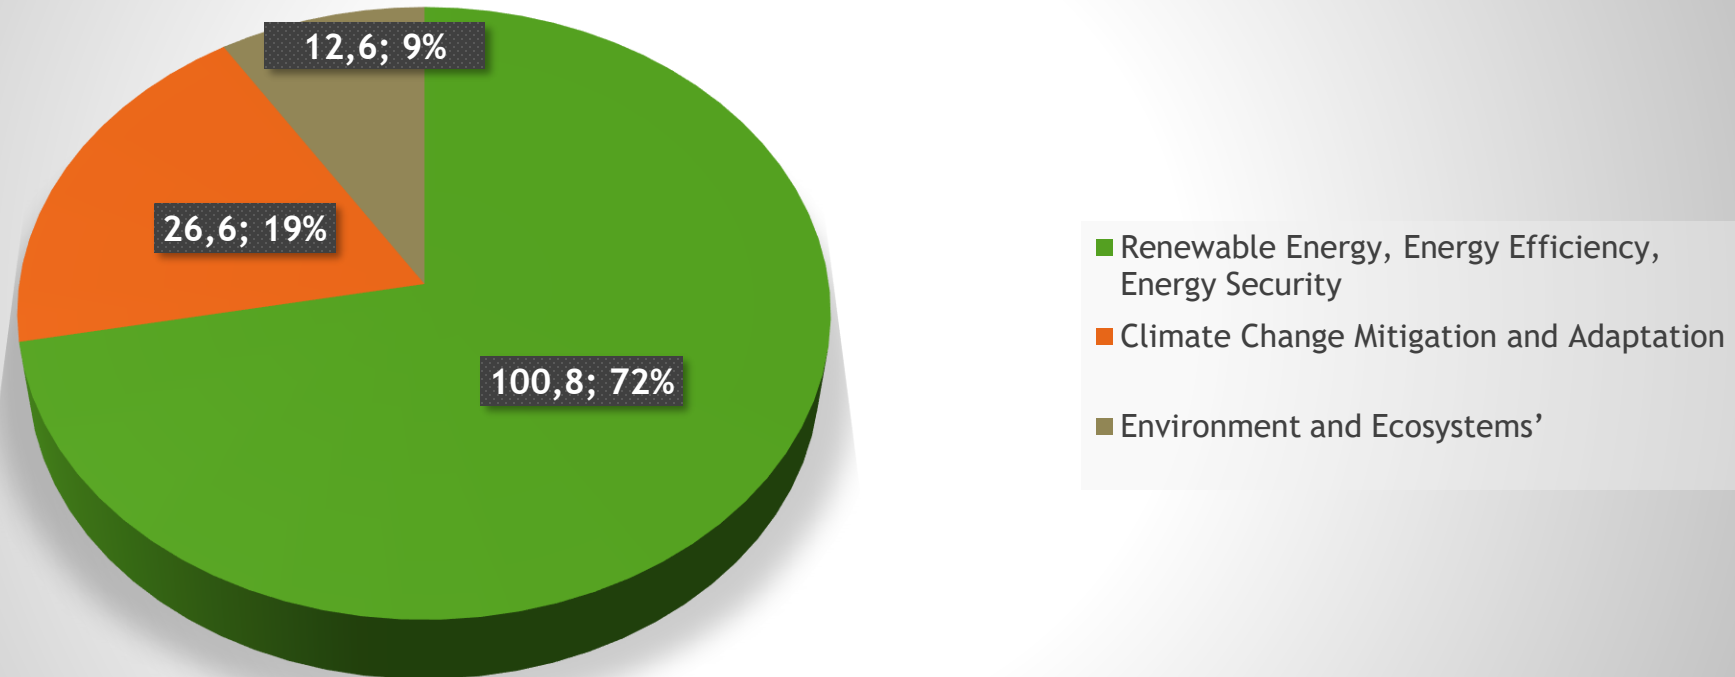

- ▶ National Energy Authority of Iceland (OS)
- ▶ Norwegian Environment Agency (NEA)
- ▶ Norwegian Water Resources and Energy Directorate (NVE)

Programme Budget

Programme budget (mln EUR)

Geothermal Energy in the EEA Grants

Geothermal Energy as a part of RES strategy

District heating in the Programme

Predefined Project

- capacity building in the area of Geothermal Energy

Bilateral Ambitions

Geothermal Energy

Amount of the EEA grant (including co-financing) €7.3 million

Call for Proposals
Construction of heat sources using geothermal Energy (deep geothermy)

Proposed amount of grant
MIN- €1 million
MAX - €4.5 million

Project beneficiaries:
Polish entrepreneurs and local government units, their unions and organizational units acting on their behalf

Possibility of implementation of the investment projects with the Icelandic/Norwegian partners

District Heating in the EEA Grants

Call for proposals

Construction / modernization of municipal heating systems and elimination of individual heat sources

Total cost (including co-financing): €37 988 705

Beneficiaries: Polish entrepreneurs and local government units, their unions and organizational units acting on their behalf.
